Replace Existing: YES or NO **Adding Additional Signage:** YES or NO

All standard signage for commercial purposes has a maximum gross square footage of 125 square feet of sign face, except billboards, identification, directional, and certain service station signage.

Note: All measurements are outer dimension, or from the property line, or from the edge outer edge of the structure. Per Lamar County regulations, the structural members do not need to be included in the face measurements.

The following information will be provided on the drawings of the proposed signage.

- A. Any existing signage to be removed, including the location of the signage with measurements for size and distance.
- B. Any new signage proposed, including the location of the signage with measurements for size and distance.
- C. The site layout of the entire project area showing the location of all signage and distance measurements from property lines, and the edge of the structure mounted to them or unit on for leased frontage.
- D. A diagram of the structure of any sign enclosure. This should include any support members, frame, foundation, and exterior-mounted lighting.
- E. Per regulations, three or more units on a single parcel should utilize Private Sign Standards (Design Criteria) approved by the Lamar County Planning Commission to enable accounting for the potential additional need over the 125 square feet maximum standard.

Permit Application Fee: \$50.00 (all signs except outdoor advertising billboard, which is \$85)

Payment method: Cash / Check / Credit Card Transaction/Ck # _____ Date: _____
